

## Free Nature Apps

Need help Identifying what you see?  
(Available in the App Store and Google Play)

- **iNaturalist** – One of the world’s most popular nature apps, iNaturalist helps you identify the plants and animals around you. Get connected with a community of over 400,000 scientists and naturalists who can help you learn more about nature! What’s more, by recording and sharing your observations, you’ll create research quality data for scientists working to better understand and protect nature.
- **Seek**, a subset of iNaturalist for plants and animals
- **PlantNet** to identify plants
- **Merlin** to identify birds by sight or by song
- **Leps** by Fieldguide for insects including butterflies and moths
- **Audubon Bird Guide** – a free field guide to identify and record your sightings
- **Bumble Bee Watch** (Xerces Society) – identify and submit your bumble bee sightings
